Subject: Out of the Office 8/12 to 8/16

Dan and Meghan:

I will be in Philadelphia for logistics training for the R4 REOC, Monday, August 12th to Friday, August 16th. I will return to the office on Monday, August 19th.

The final Kampachi EA is in the NEPA folder labeled Velella Ep Environmental Assessment Draft (Final) 6-18-19 RW. The appendices folder located under NEPA has all the most updated documents that need to go with the EA. So all the documents in the appendices are what should go with the EA.

Meghan: If you get the signed ESA consultation from your management, please email that document to me and Dan.

Dan: Monday, Meghan said she will know if she has the approval to move forward with publication of the documents. If Meghan gets the signed ESA consultation from her management, you can upload it to Appendix D (so right now in the appendix D folder there is only the BE and no ESA consultation request. There is only a reference of the ESA consultation request written in the EA). If Meghan does not receive the signed ESA consultation request then the documents in the appendices folder under NEPA is all that should be needed. Lastly, I have a few comment boxes in the EA asking you to check the language. Save a clean version of the document for publication submittal and then everything is done!

If you all have any questions you can email me while I am in training. I will have my computer but may not be able to answer you quickly, but I will answer you.

Have a wonderful weekend and next week!

Sincerely,

Roshanna White | Life Scientist
